Judge Kollar-Kotally,

As a concerned citizen, I urge you to reject the proposed final judgment in the U.S. vs. Microsoft antitrust case. Microsoft is getting off easy, with most of its many billions in illegal profits going untouched.

I'm also worried that Microsoft will continue to harm the high tech industry and the American consumer by using anti-competitive bullying tactics. This convicted monopolist must be dealt stronger punishment for the good of the public.

Sincerely,

Rosemary Brubaker
